

Capital Campaign Update

We have reached our pledge goal of \$2.7 million and have started meeting with architects to move forward with the first phase of projects. Thank you to supporters like you who made this an attainable goal! This will leave a lasting impact on the lives of our homeless and at-risk families in our community.

- Renovation of Family Shelter dorms is first priority
- Demolition of building on site of the new education center will begin soon
- We've started construction at Myrtle Grove, the 15 new units of multi-family housing on Waites Road. This \$3.1 million project, funded by SC State Housing Authority, is an important part of our expansion and will help provide safe, clean, and affordable housing to our community. Stay tuned for information on groundbreaking!

Homeless No More News

Our children's summer camp began in early June. We are excited for the educational opportunities it is providing! Our Homeless No More children are already enjoying their summer gardens, which allows them to spend time in the outdoors. This year, summer camp is split between Family Shelter and St. Lawrence Place due to COVID-19 and social distancing guidelines. The new education building funded by the Capital Campaign is needed more than ever! It will help keep the kids healthy and in one place.
